About me

<h2>I am a recent intern with a passion for web development and a desire to showcase my growing skills. I have a strong background in front-end development and a year of hands-on experience in various projects. I am a motivated, energetic and collaborative developer who can handle high-pressure situations</h2>

Work experience

Since April 2022

Software Engineer intern
Younglings Africa Cape Town

- Maintained the company's codebase using proven software development methodologies, ensuring consistency and seamlessness.
- Continuously sought opportunities for personal and professional growth by working with new technologies, collaborating with mentors and leaders, and participating in hackathons.
- Worked with the development team to implement features that met project requirements. Used Agile techniques and methodologies to maintain understanding and consistency.
